Col Lovell

I want you to prepare dissemination lists for all the various types of reports. I want to submit this to the Document Conference for criticism. In this way, we can build up our dissemination list to render the service to the people desired. Let me have a draft of that as soon as practicable.

There's a Lt. by the name of MCGlocken who ~~is~~ with the CIC on Leyte. He was engaged in the collection of documents and technical intelligence and other items and I know that you will be very interested to talk to him and getting the information that he has. He is reporting to Ritchie in about 10 days for duty - instructing in the school on a TD basis. He will be there about 2 mos, I should say.
